

# ACS BAGS

## Meet the requirements of the French Ministry of Health, ACS-certified

- ▶ **ACS: The ACS (Attestation de Conformité Sanitaire - Sanitary Compliance Certificate) has been mandatory in France since 2006 for all equipment in contact with drinking water.**
- ▶ Supply of the ACS certificate
- ▶ Each bag filter is individually packed
- ▶ An economical alternative to sand filters. Compact and requires no washing operations.
- ▶ Two types of ring: stainless steel O-ring or molded AMP ring

## OPTIONS

- ▶ Available in W geometry
- ▶ Can be used with a non-return device or a magnetic system or a volume reducer (sheet FTQ/1PO/04E/A, page 29)

## FILTRATION RATINGS

<b>HPB</b>	1 to 10 µm**
<b>HPA</b>	5 to 20 µm**
<b>HPC</b>	10 to 50 µm**

\*\*See page 25 for the efficiency corresponding to these filtration ratings.

## WORKING RANGES

All treatments of water for human consumption:

- ▶ water towers
- ▶ production of drinking water
- ▶ filtration of well water intended for human consumption

## CODING SYSTEM
